

EM Training Services

Fire Marshall and Fire Awareness Training

Fire is a major cause of loss and damage faced by business each year, the total cost of fire in England and Wales was estimated at approximately £7.03bn in 2004. More importantly it leads to the loss of hundreds of lives year on year.

Since the Regulatory Reform (Fire Safety) Order 2005 came into force on 1st October 2006 organisations have had to carry out a fire risk assessment and nominate a sufficient number of competent persons to ensure emergency procedures are enacted. These procedures will also have been identified by your fire risk assessment.

If you are responsible for a premises, are an employer or self employed or a contractor with a degree of control over a business premises or are a charity or volunteer organisation then you should have a fire risk assessment in place. If you are unsure of your requirements then contact us for further assistance.

As ever EM Training Services aims to provide the best possible bespoke training solution for your organisation. We can train all your staff in fire awareness and your designated staff as Fire Marshalls.

Using experienced and qualified Fire Fighters and workplace safety experts to advise you and deliver the training we can deliver a tailor made training package ranging from simple fire awareness to the practical use of fire extinguishers.

Courses can include the following;

- Legislation
- Raising the alarm
- Chemistry of Fire
- Fire extinguisher awareness
- Practical fire fighting
- Evacuation drills

Contact EM Training Services today and we will arrange for an experienced advisor to contact you and discuss your requirements.
